

# ZoomieCoin (ZME)

Version 1.0

Solana Blockchain

## Purpose

ZoomieCoin (ZME) exists for one reason only:

**To celebrate cat zoomies worldwide.**

For every zoomie your cat has ever done — or will ever do — you may buy one ZME ZME.

No roadmap. Just zoomies.

## Token Details

- **Name:** ZoomieCoin
- **Symbol:** ZME
- **Chain:** Solana (SPL)
- **Total Supply:** 1,000,000 ZME (fixed forever)
- **Decimals:** 0 (integer-only token)
- **Mint Authority:** Disabled

**Note:** ZME tokens are indivisible. No fractional zoomies.

## Distribution

| Allocation                 | Amount               | %           |
|----------------------------|----------------------|-------------|
| Public Liquidity (DEX)     | 850,000 ZME          | 85%         |
| Reserved / Non-circulating | 150,000 ZME          | 15%         |
| <b>Total</b>               | <b>1,000,000 ZME</b> | <b>100%</b> |

## Trust Signals

- **LP Locked Forever:** All LP tokens were burned. With **zero LP tokens in existence**, liquidity cannot be withdrawn.
- **Supply Locked:** Mint authority disabled.
- **On-chain metadata and logo** available.
- **Fully auditable** via Solana explorers.

## Trading

- **Pair:** ZME/ SOL
- **Venue:** Raydium
- Anyone with SOL can swap for ZME (manual token import may be required).
